

You have the power to Donate Life.

It's about living,
It's about Life.

Organ, eye and tissue transplants offer patients a new chance at healthy, productive and normal lives. In addition, the donation process helps bring comfort to families grieving the loss of a loved one.

Transplantation is one of the most remarkable success stories in the history of medicine. It provides hope to thousands of people with organ failure. Transplanted tissue offers hundreds of thousands of people active and renewed lives. But transplantation requires the commitment of organ, eye and tissue donors. Unfortunately, the need for donors is much greater than the number of people who actually donate.

Mario, Liver Recipient
Seattle, WA

Register to be an organ,
eye and tissue donor.

Don't rule yourself out for age or medical reasons.

There is no conflict between saving your life and donation.

There is no cost to you or your family for donation.
