Registry

How can I register?

- **Say ‘YES’ when you get your driver’s license.**
If you already have a heart and/or the word DONOR on your license, you are automatically added to the registry.
- **Register your wish online**
 - WA or MT: www.donatelifetoday.com
 - Alaska: www.alaskadonorregistry.org
 - Idaho: www.yesidaho.org
- **Request a brochure to fill out and mail back**
 - WA or MT: Call 1-877-275-5269
 - Alaska: Call 1-800-719-5443
 - Idaho: Call 1-866-937-432

Review Worksheet Answer Guide

Multiple Choice

1. How can you make sure your decision about organ, eye, and tissue donation is known?

- a. Register your wish online (at www.lcnw.org)
- b. Say 'YES' to donation when you get your driver's license
- c. Request a registry brochure to fill out and return
- d. All of the above

Answer: D

2. The recipient of an organ is determined by:

- a. Blood and tissue type, body size, length of time on waiting list and medical urgency
- b. Race
- c. Ability to pay
- d. How famous you are

Answer: A

- The LifeCenter Northwest coordinator matches organs to recipients using the National Transplant Waiting List.
- Strict federal guidelines ensure ethical and fair distribution, so there is no way to cut in line based on wealth, fame or any other non-medical factor.

True/False

1. Transplants save/enhance lives.

True False

Answer: True

- Transplant recipients receive a second chance at life.

Most live many years as a result of the generosity of organ, eye and tissue donors.

2. If I am a registered donor, doctors will still work hard to save my life.

True False

Answer: True

- The doctors who work to save your life are different than those involved in organ, eye and tissue recovery and transplantation.
- Only after death has been declared will organ, eye and tissue donation be considered.

3. Anyone can be a potential donor regardless of age, ethnicity, or medical history.

True False

Answer: True

Donation Facts

Fill in the Blank

- More than **114,000** people are on the waiting list for a life-saving organ transplant, including more than **2,300** regionally.
- On average, **20** people die each day waiting for a life-saving transplant.
- One registered organ, eye and tissue donor can save up to **8** lives and enhance the lives of more than **75** people.
